Project

Project Name — *Airline Management System*

The main motivation was to know how the website Make My Trip, how they manage the customer details, flight details and ticket booking details in such a perfect manner where no clashes occurs between customers while booking their seats.The entire project has been developed and deployed as per the requirements stated by the user, and it is found to be bug-free as per the testing standard that is implemented. The computer does maximum work within minimum time. Because it is used in every field it provides comfort and suitability to everyone. Providing maximum facilities and comfort to customers is the main goal of the firm. To achieve this goal, other modern facilities relating to computers should have to be provided.
